

Light. Insight. *Life.*

EHS Mission Statement

Environment

We strive to have a low environmental impact and a low consumption of resources and energy over the entire life cycle of our products - from raw material, manufacturing and application, to recycling and disposal.

Throughout the company, we behave in an environmentally conscious manner and are constantly improving. In our processes and investments, we comply with, or exceed legal requirements.

Employees

Fair and healthy working conditions that comply with legal and social partnership requirements are ensured at our company, and extended to our suppliers and agents

We are dedicated to ensuring and improving the occupational health and safety of our employees through continuous and proactive measures, appropriate work distribution, management, and training.

Awareness, Prevention, Safety

From production to the leadership team, we “STOP” in case of danger, “ELIMINATE” the hazard, and “RESUME” work in a safe environment.

The health, safety and well-being of our employees and partners are important to us. The safety culture is promoted through our local safety committees/councils and/or active discussions and training.

Communication

The mission statement is communicated to employees when they start work and is displayed visible at our company locations.
